
BC Yukon Society of Transition Houses: Preventing Violence Against Women and Children

BC! Form a Domestic Violence Death Review Committee!

We urge Premier Gordon Campbell to establish a Domestic Violence Death Review Committee in British Columbia to conduct a thorough interdisciplinary review of every domestic homicide so that similar deaths can be prevented by addressing any issues raised related to public and professional awareness about the problem as well as effective assessment and intervention strategies by all service sectors and the justice system.

Yes Premier! I support the urgent need to establish a Domestic Violence Death Review Committee in BC!

First Name	Last Name	Street Address	City	Province	Postal Code	Email

We Request that the BC Provincial Government DOES NOT USE any current or potential program funding intended to support Women and Children
